Accounting Court Case Consultancy.

Every business is unique. We deliver custom-tailored solutions aligned with your objectives—not generic offerings.

Our firm provides expert advisory report services for cases presented before all courts across the UAE. We assist clients (those requesting an advisory report) by identifying the strengths and weaknesses of their ongoing cases.

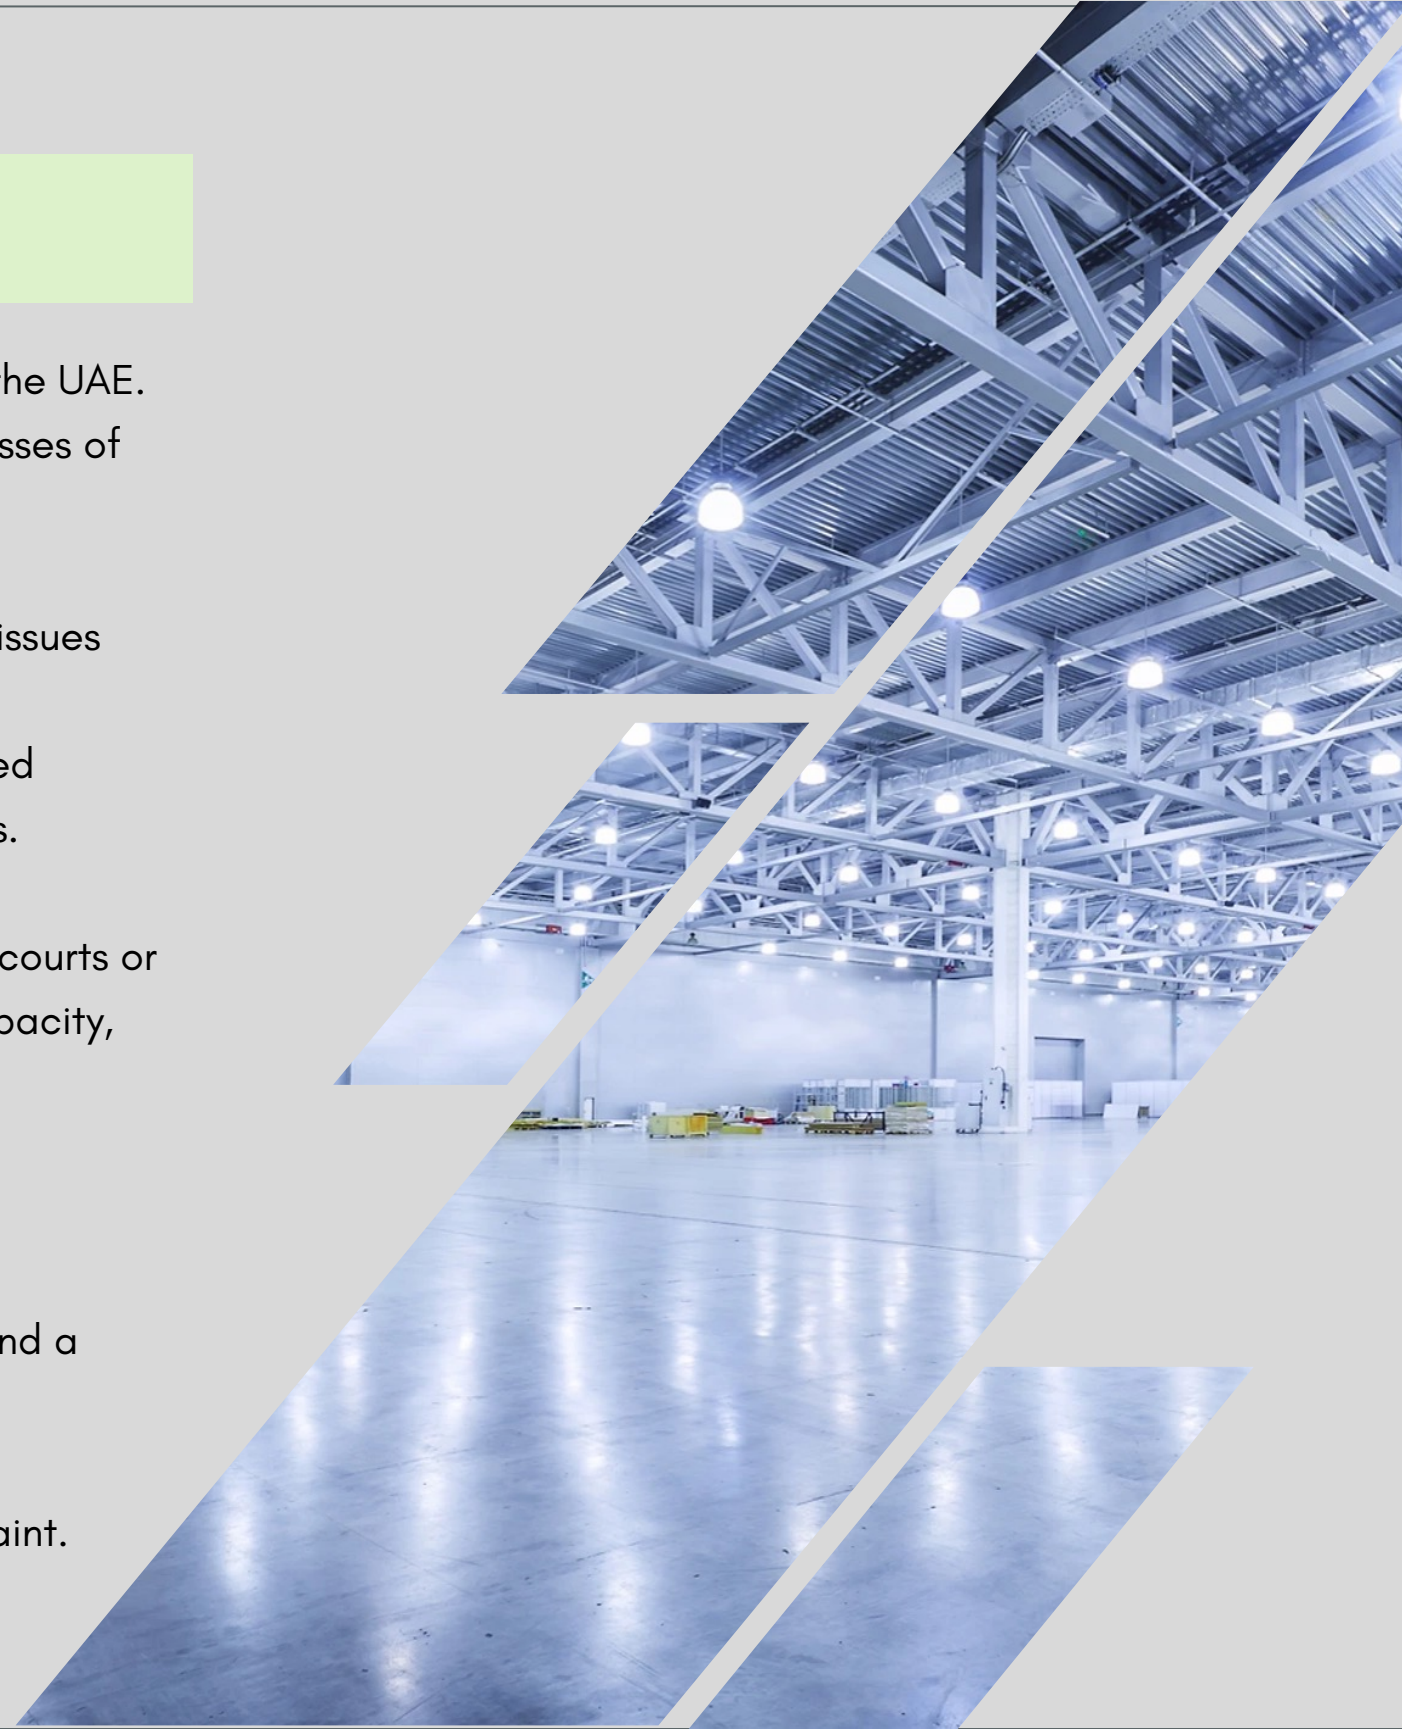

Commercial disputes, fraud, theft, and money laundering cases are among the many types of issues we handle.

What these cases have in common is their reliance on specialized opinions provided by qualified professionals—namely, Certified Public Accountants and Certified Forensic Accounting Experts.

The key distinction between the two is that Forensic Accounting Experts are appointed by the courts or public prosecution offices to examine a dispute or complaint in a neutral and independent capacity, without favoring any party.

Our firm will conduct a technical and professional analysis of the case or dispute. We will also identify the necessary evidence and documentation that may support the case or complaint, and subsequently issue a certified advisory report prepared by a licensed auditor and a court-accredited expert.

This professional approach can positively influence the outcome of the dispute or legal complaint.

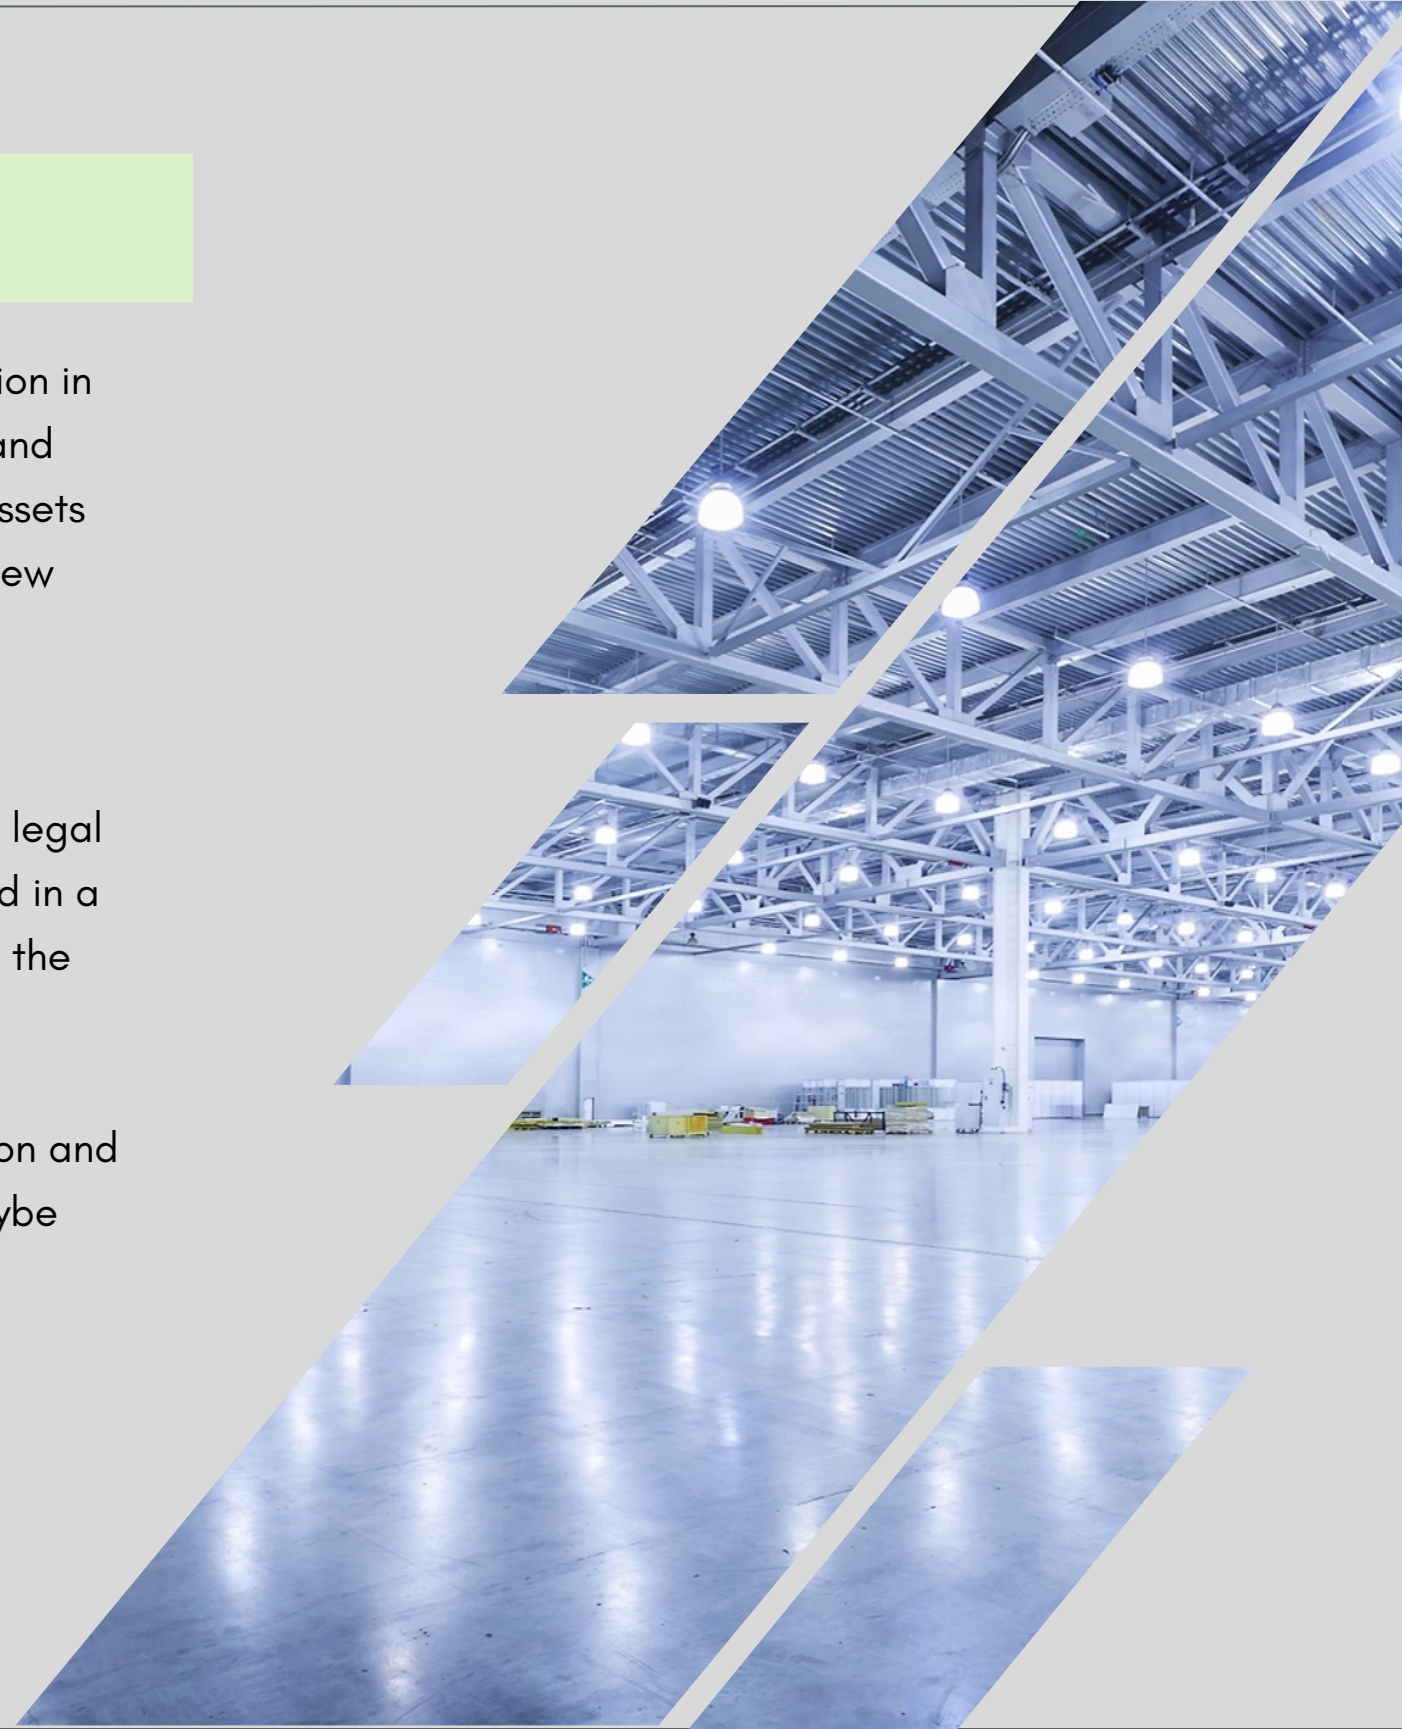

Business Liquidation Services.

Business Liquidation – Facilitating Strategic Closure and New Beginnings

At Assist Plus we provide the liquidation services of companies and the elimination of registration in the United Arab Emirates. Business liquidation entails the methodical cessation of operations and asset liquidation to address financial obligations, repay investors, and redistribute remaining assets among stakeholders. Despite its initial daunting appearance, liquidation marks an end and a new beginning, offering avenues for growth, reinvention, and renewed focus.

We cover all the required practical perspectives of the liquidation from accounting, legal and legislation. Liquidating of companies is not easy where it needs the appointment of a certified legal liquidator at the headquarters where the company is located, and the legal liquidator is named in a document appointed, as a decision of the General Assembly of the company or a judgment of the local court.

According to the law it is a must to determine the decision to put the company under liquidation and appoint through a formal power of attorney a liquidator. The liquidation may be quick and maybe gradual depending on the situation that the company has when deciding to liquidate.
